## Chapter 1 by TonyHD

Born different, I was. Short. Green. And naturally able with the force, I was, and still am. Speak this way, I did not.

The horror in my mother's eyes, remember, I do. So faint, the memory is...

Everyone screamed. The nurses, the doctor, and most importantly, my parents. My parents were never "strange". They were normal. This was a time when all known to mankind was Earth and the Milky Way alone.

Every since childhood, people hated me. They never played with me or let me play with them. I remember choking a boy... his name was Martin. He was tall and strong, and he picked on me. I choked him 'till his face turned purple and he pleaded me to stop. I don't know how I did it. I didn't touch him. He floated.

Until I entered Middle School, my life was miserable. Then, one day, I saw on the TV that... someone like me had been found. Many, as a matter of fact.

## Chapter 2 by Phantim

They weren't here to share technology, or meet new species, indeed that had been to our world already before. I thought maybe they had come back for me. I longed to meet them and become a part of them.

But that is not why they had come. See more of Story Wars and it wasn't long before their enemy caught up. When the ship arrived, I knew I was home.
